

## EXPERIENCE

### Belkin International

Senior Industrial Designer  
oct 2022-present

*As an industrial designer, I managed each project from design, testing, production & packaging. My responsibilities included directing engineerings, PMs & the manufacturers to release a product successfully.*

### Gooby Pet

Sen. Industrial Designer(contract)  
july 2021-oct 2022

*I led the efforts to develop a new brand guideline & improved the design/production process. Additionally, I am overseeing the development of a new sub brand with a collection of new products.*

### Incipio Group

Industrial Designer/Project Lead  
jan 2020-july 2021

*I designed consumer electronic accessories for Incipio, Griffin Technology & Incase. As part of the product team, my responsibilities were to oversee my projects start to finish working with engineers and vendors overseas.*

### Kuzco NYC

Industrial Designer/Project Manager(contract)  
july 2019-jan 2020

*I was contracted to review their backlogged designs & help their product team get their designs manufacture ready. Additionally, I designed original lighting products for their 2020 lighting collection.*

### AT&T/Directv Ent.

Industrial Designer  
june 2018-july 2019

*As a member of the experience design team, my jobs included designing hardware for at&t and directv as well as assist in the rebranding efforts. During my time there, I helped create the inclusivity design team to develop products/services for a wider group of users.*
